

Scenario:

You are a USC student who have all the class squished together at noon. You find yourself have no time to go to the cafeteria but the snacks in vending machine are unhealthy. Also, there is not a lot of options. You would like more options and more ways to pay besides using card.

Task 1: buy some food using PayPal.

Task 2: buy some life essentials using Carolina card.

Task 3: buy some drinks using venom.

Notes:

What changes you should make to your application:

1. Too many options may cause confusion.
2. Lack of feature to add to favorites.

What you need to keep the same for your application:

1. Payment options are good.
2. Its good to see the distance from the vending machine.
